

LEPC Updates

1/19/2011

LEPC - Amy Manney, Chair:

1. It has been one year since LEPC merged with this committee. She noted it was time to re-address the revision of the by-laws and was looking for volunteers to help in this process. Planning to send out a draft to the committee with the April meeting agenda.
2. This is the time of year when agencies with large quantities of chemicals need to report their inventory. Hoping to have additional people/agencies on board.
